

# PLAY MONTGOMERYSHIRE

---

Registered Charity No 1000016

## POLICY – EPILEPSY

All staff should be made aware of any children having an Epileptic condition.

Each member of staff/their 1:1 Worker needs basic information regarding the individual pupil with an Epileptic condition.

1. the form and frequency of seizures
2. any known trigger prior to a seizure
3. possible side effects of medication
4. handling procedures during a seizure

If a child/adult having an Epileptic condition is to participate in a Play Montgomeryshire project, then there should be at least one trained member of staff present. (These may or may not be employed by Play Montgomeryshire who should be called in the event of a seizure).

This procedure will be reviewed on at least an annual basis.
